

What is Cliniconex?

Cliniconex is a **value-based clinical outreach solution** that automates patient outreach and enables physicians to track quality of care. Driven by your clinic's preferred workflow, our light touch, automated communication and reporting software not only streamlines pre and post visit outreach but also offers an extremely customizable platform for preventative patient care and individualized patient health literacy.

We deliver better engagement for:

- **Preventative care**
- **Registry management**
- **Health education**
- **Value based surveys**

...and we do it in a way that is actionable for the provider with our Value Analytics.

Benefits for Providers:

- Provide better care for your patients
- Reduce administrative burden on your staff
- Track patient experience in real time and course correct
- Track at provider, clinic or hospital level

Benefits for Patients:

- Highly personalized, relevant engagement on regular intervals
- Information delivered to patients by voice, text or email
- Come prepared for appointments
- Live better lives

Benefits for EMR/EHR Partners:

- Seamless integration
- Personalized patient outreach from registries
- Automated outreach complements the patient portal

“ Are you looking for a way to extend the walls of your clinic and provide better outcomes to all of your patients? ”

Visit www.cliniconex.com for the story of how Dr. Stuart was cloned and now engages better with her patients

How Does Cliniconex Work ?

Works Seamlessly With Your EHR/EMR

Cliniconex integrates with your EHR/EMR scheduler. No exporting of confidential patient data. Automated patient outreach is driven by a clinic's workflow without disruption to the staff and requires no manual effort, freeing up staff to focus on other clinical duties.

Customize Your Patient-specific Reminders

Highly relevant patient outreach means behavioral changes. Cliniconex offers the most comprehensive Patient outreach solution. Our messages topical; they contain important patient-specific information. When following up on care gaps or health education patients pay attention creating positive outcomes.

Minimal Learning Effort

As sophisticated as Cliniconex is, your staff will be up and running in no time. Following a consultation to configure Cliniconex to reflect your practice's workflow, staff will virtually self-learn.

Set and Forget

Cliniconex is 100% automated and operates in the background 24/7 with no manual involvement required. After a brief initial setup, run your clinic with confidence, knowing your patients are getting highly relevant, personalized outreach before appointments and on their health journey afterwards.

Customer Quotes

Dr. V. J. Kulkarni

ABELMED

"The service quality and the careful support from the people who develop the system changed my views on automated patient outreach."

Dara Vongviset-Barbuto

Sounds Care Medical Centre

"Adding Cliniconex to the our clinic fully equipped us to streamline our workflow, improve efficiency and provide better customer service – ultimately positioning us for growth."

Tony Pallaria

Markham Family Health Team

"The best part was that the implementation was very smooth. After the initial workflow analysis was complete it was smooth sailing. We turned it on, we tested it out and we are very, very pleased."
