

# Vital Images Fact Sheet

For more than 25 years, Vital has been a pioneer in imaging solutions. Our Vitrea® family of software solutions help healthcare organizations deliver exceptional care, while optimizing resources across multi-facility organizations. Vitrea solutions orchestrate data, making it easily accessible throughout the enterprise and focus on providing context and clarity to the information presented at the point of care. Our solutions are scalable to meet the unique and evolving needs of your organization.

## **Vital is Vitrea**

**Solutions founded in our steadfast belief that the patient is first.**

## **Vitrea Connection**

You connect with your patient. We help you connect to and understand your data in a meaningful way.

Vitrea Connection is the foundation upon which our visualization and resource planning solutions excel. It is the engine that constantly renews and refreshes all relevant information from disparate sources in real-time and seamlessly delivers it to the point-of-care.

## **Vitrea Vision**

You see your patient. We help you see inside the body.

Through our years of experience, we have developed a modular viewing platform that can be configured to meet the unique viewing needs of all users, providing access to required images anytime, anywhere.

## **Vitrea Intelligence**

You care for your patient. We help you to better know your business to create efficiency, quantifiable value and to improve patient experience.

Vitrea Intelligence's suite of applications helps imaging leaders run their businesses more efficiently and profitably while ensuring the delivery of quality patient care.

# Vital Images Fact Sheet

## History

Vital Images, Inc. was founded in 1988 by Dr. Vincent Argiro (retired) on the belief that advanced visualization technology could revolutionize medical practice by strengthening the ability to non-invasively see and analyze anatomy or pathology, enhancing communication among medical professionals and patients and improving pre-procedural planning, as well as post-surgical follow up.

Since its inception in 1875, Toshiba has made it their mission to provide integrated diagnostic solutions through long term, customer-focused partnerships to improve the quality of life for all people.

## Customers

Vital Images' healthcare imaging informatics solutions are used at more than 5,000 hospitals in more than 83 countries across the globe, including many leading institutions listed on *U.S. News & World Report's Best Hospital Honor Roll*.
